## Information Needed

Please bring the following information with you:

- Insurance identification
- Social security number
- Date of birth
- Address
- Occupation
- A list of medications taken regularly with the name of the medication and dosage
- Known allergies

You must have one person with you to drive you home. Hospital policy requires all patients receiving procedural sedation to have someone present with them during and after the procedure since they will NOT be able to drive home. Your test cannot be done without someone with you. Please be aware the physician will speak to your family or friend post procedure unless you specify otherwise.

Please follow the prep instructions given to you by your physician. You must not have anything to eat or drink after midnight, including chewing gum, chewing tobacco or hard candy, etc. Eating or drinking prior to your arrival could delay your procedure or cause it to be cancelled.

Prior to the day of your procedure, you should receive a phone call from the hospital preregistration team to verify your insurance and answer any co-pay or deductible questions you may have. If you miss this call and have any questions, please call our business office at 930-2470 or 939-7025.

Thank you for choosing St. Vincent's GI Endoscopy Center for your care.
